## Church Union in 1915

By a vote of 178 to 54 a strong resolution favoring church union was carried by the great assembly of Presbyterians meeting in Toronto. The other day a resolution looking the same way was carried by the 52 to 51. The text of the resolution which is given in full below, indicates a desire on the part of the protagonists for union to hasten its coming and is more definite as to the necessity for immediate action in the matter.

"That in view of the large majority in our own church voting in favor of organic union and the particularly unanimous favorable vote in our particular assembly, we, the Presbyterians of the church, and in view of the desire in all sections of our church that the Christian unity which obtains between the churches may be continued and deepened and in view of the strength of the minority in our own church which has not approved of organic union as the best method of expressing the unity which exists, it is rapidly growing stronger, the church, which, and in view of the desirability of the utmost unanimity of action within our own church, this committee proceeds to consider the suggestions and alternatives referred to it, and recommends the general assembly as follows:

"—That the assembly assure the other negotiating churches that the Presbyterians are fully prepared to share responsibility in the present movement and earnestly desires that the spirit of unity which has given rise to it may be preserved and deepened, and asks the other churches to continue the negotiations in the hope that the union may be consummated without delay.

"—That the union committee be continued and that for the fullest and most cordial co-operation of the members, further amendments to the present plan of union and alternative proposals be invited from Presbyterians and from sessions, congregations and individuals through presbyteries and referred to this committee, in order that after considering them it may enter into conference with the committee of other denominations in view of setting before our people a final presentation of the question for their judgment.

"—That in order to secure the findings of the joint committee of the negotiating churches on all such proposals be sent to presbyteries, sessions and congregations, with the details of the vote already taken and all other relevant information."

## PROCESSION FOR UNION.

The procedure of the church in the future in the matter of securing actual union, as explained by Rev. D. M. B. Ramsay, of Ottawa, will be as follows:

"Up to the end of November clerks of presbyteries throughout the Province will receive any communications with reference to changes in the basis of union. In December the union committee will meet in Toronto, and after full consideration of all the proposed changes in the basis of union, a joint meeting will be held of the three union committees. These will agree on a basis and the matter will then be ready for submission to the general assembly in 1914.

The members will submit the matter to the members of the church, if this is deemed desirable, for a vote and to the presbyteries of the church under the barrier act. If the majority of the presbyteries take favorable action, the union will be consummated in 1915. As the mind of the church on the question is now fully known, it does not appear that there will be any failure in this program.

## Order Twine Early

I have made arrangements with the U. F. A. to supply twine this year so it is to the interest of every farmer to place his order early so that no delays may be caused by shortage at the busy season. Leave your orders with me right away. This is in your best interest.

Frank Murray, Claresholm, Alta.

## Eldest Son Taken

The funeral takes place to day of Alf Nicolai, the eldest son of Bertal Nicolai, one of our most progressive farmers near town. The lad was taken ill with a sudden attack of appendicitis on Wednesday last evening and was taken on Sunday in an ambulance to the Galt Hospital where he died yesterday afternoon. Every effort proved unavailing, the boy succumbing to the attack of the disease about midnight that day. The body was brought back to the home of his parents here and to-day the funeral service was held in the Methodist Church. The services were conducted by the family and Rev. Harris, the pastor, conducted the services. Interment took place in the Claresholm cemetery. The deceased was a pupil of Miss Carson's room and among the offerings was one from his schoolmates which testified to the place he had held in their affections. The service was conducted by the church shop, carpenter shop, chalcograph and library will be all equipped in first-class manner so as to afford the boys who attend the school the same advantages that they have in the first two years course of any agricultural college. A staff of competent teachers will be engaged and the school will be under the direction of Mr. W. J. Stephen, B.A., B.S.A., who will be Principal of the school.

## Meadow Creek Notes

John R. Craig was a visitor last week. He is astonished at the progress made with the construction of the Meadow Creek store.

Mr. H. DeForest spent the week end at home.

The crops are looking very well but we would be willing to stop work for a day if it rained.

The schools are packed the doors last Sunday when Mr. Walker preached. We really ought to build a church here.

The schoolmen are busy hauling wheat to town. Prices are a whole lot better than they were last winter.

## BASEBALL NOTES

The match played last Saturday between Bachelors and Biedwicks was the best of the season. The married men started out well and at the end of the third were leading 5-0. Between the innings the married men were stroking over to the grandstand and the girls should have played. Things changed in the fourth however and from that till the end it was all one-sided. The final score was 23-13. Bell Bros. formed the battery for the single men and Vauduis, Crawford and Harvey did the work for the married men.

Leslie Sherman enjoyed the game and escaped with his life.

Jack Bowie got two batters but that the umpire didn't give him a chance and Jack struck out.

Al. Crawford is to spend the next two weeks learning to run when he hits the ball. He likes to stand and watch it travel.

Five Bell played for the single men and one for the married men. Too bad there aren't a few more of them.

Mr. Harry Clasper, recruiting sergeant for the 23rd Alberta Rangers, was at the game with 2, series roll. Every man who made a home run was signed immediately.

The married men want a return game. Didn't they get beaten badly enough?

## Begin Sawing Monday

W. H. Cody of the Foothills Lumber Co. in town on Wednesday for a short time, also going his crew together to commence sawing on Monday. The logging season was a good one and over a million and a quarter feet of logs are awaiting the saw. A very competent sawyer from Spokane has been engaged and the prospects for a good harvest are excellent.

As the lumber business has been fairly installed and it is expected that the cost of operation will be materially reduced. As this company have worked on the live-and-let-live principle, the farmers should respect the advantage of the better equipment

## PRINCIPAL APPOINTED FOR CLARESHOLM AGRICULTURAL SCHOOL

SCHOOL OPENS NOVEMBER 1st.

The School of Agriculture now undergoing erection at the town of Claresholm will be open for students on or about November 1st. The school building will be completed and the grounds will be laid out by the 1st of October.

It will be seen that Mr. Stephen,

Manitoba Agricultural College to complete his studies. His graduation marks the first arts man to take a degree from Manitoba's young agricultural college.

It will be seen that Mr. Stephen,

while occupying a good position in educational institutions, was interested enough in agriculture to leave the former line of work and fit himself by training at an agricultural college for the teaching of agriculture, which regards him as of paramount importance in Canada's education. This is the first man whose education has been based on this line for the province of Alberta with qualifications that should fit him, together with his energy, to take a foremost place in the development of agricultural education here.

The Principal of the school will open it in Claresholm early in July, and will spend the time in July and then the opening of the school in making the arrangements,

Mr. Stephen, though a stranger in Alberta, is well-known in Manitoba and Saskatchewan, and is at the present time engaged by the Provincial Department of Education in Manitoba in the work of introducing the system of agricultural instruction into the high schools in that province. Mr. Stephen has the advantage of being a graduate in arts as well as in agriculture. He was born and reared on a farm in Oxford County where mixed farming is carried on extensively, and was educated in the public schools and took his secondary education at the Collegiate Institute in St. Mary's, Ont. After attending model school in Stratford, he taught as principal of the Botwood Public School for three years. He next took an honor course in chemistry and mineralogy in the University of Ontario, where he obtained a Bachelor of Science in 1909. "To me," he says, "was his appointment to the Toronto City Dairy, and in the spring of 1910 graduated in pedagogy from the Faculty of Education, Toronto. Later he attended the Manitoba Agricultural College, and completed four years' standing there in March of 1911, when he was appointed Principal of the High School at Bell's Falls, Ont.

He was then called to teach in Simplot Collegiate Institute. He returned west in the spring of 1912 and spent the summer farming in Saskatchewan, and during this time did considerable judging of live stock at the summer fairs in that province. Last fall he returned to Simplot.

A prominent course in Domestic Science and Household Economy will be given for girls. This is preliminary to a full six months' course that will be put on next year. For particulars of this course address Mrs. Georgia Stiven, Department of Agriculture, Edmonton, Alberta.

in visiting prospective students, and in making general preparations for the work to be done. Any prospective student should address correspondence to the Principal of the school at Claresholm after July 1st, when he will receive all information in regard to the school.

## Badger Flat Doings

Rev. Eddy Magee has been returned to Badger Flat as a summer supply by the Methodist conference.

The Badger Flat school board have decided on a plan for their new school building. Tenders will be called for in a few days, plans and specifications can be had by calling on the sec. J. Strong.

A welcome rain struck the flats Sunday afternoon brightening things up and putting new hope into the farmers.

Mrs. Ray Miller is slowly recovering from a very severe sick spell.

A young man by the name of Crow had his arm so badly crushed in Mr. H. E. Chapman's well drilling machine, that it had to be removed at the shoulder in the Amherstwood hospital.

The Badger Flat baseball team met at Rockwood on June 21st for the purpose of electing a trustee to fill a vacancy made by the moving away of J. P. Ross.

Last Wednesday evening the Badger Flat baseball team met at Rockwood in a very close game, the result was 2 in favor of the Rocky Coules.

## Cadet Camp Will Open On June 30

Arrangements have now been completed for holding the cadet camp at Calgary, and it will be opened from June 30 till July 6 thus following just a week after the militia camp. It is expected that there will be about 1,200 cadets in attendance for the week, and the number will be considerably in advance of what it was last year, and all the large centres in the province will be represented.

## Sunday Services at St. Andrew's

At St. Andrew's Presbyterian Church next Sunday, the Sunday School and adult Bible Class will meet in the morning at 11 o'clock. The Chinese Training Class will be held in the afternoon at 3. The evening service will be in charge of F. E. Werry, of Calgary, Gen. Sec. of the Chinese Ministry. Mr. Werry is a well known speaker.

Mr. Werry is well known here in connection with St. Andrew's work and is just as free and fluent in the course of things as the Senate becomes Conservative? Come to think of it, Bro. Gove has an amazing flow of

language.

## Here's to You Hiram

You went in with a groan, you came out with a smile. That's what Hiram does to one. There was a splendid house to greet Fred Ardath and his splendid company on Tuesday at the local playhouse. There was not a disappointed one in the audience, and the house was full. Of course it wasn't a chance nor an imitation. One was kept so busy laughing or trying not to laugh that the moral was lost sight of if the little musical playlet had a moral lesson to teach. It was just entirely music and funny little story and a bunch of lively little girls and boys. The curtain call was a success. Hiram, as a comedian is funny, funny if he does not intend to be funny. His support was excellent. There was no soldering. Every one of the company put all the ginger and all go into their lines that the audience and the party could stand.

"Mushroom Ketchup," the curtain call was well received. Hiram's performance was excellent but hammy. The dialogue is funny without being risque. "Hiram" was a scream from start to finish. He had no time to draw breath as one funny situation and funny business crowded the heels of the next until the curtain fell. Hiram can come again as soon and as often as he likes. His experience in playing female was the violin playing of Miss Arlington. Even at Ardath had to tumble into the encore with an accompaniment on the table crockery played with the cutlery. Well! it was funny, that's enough. And the relaxation it brings to tensed nature makes it worth while even if it does not please the highbrows.

## Honor Dear Old Dad

Spokane Wash., June 10.—"Fathers' Day," an institution started in Spokane three years ago by Mrs. John Bruce Dodd, will be observed on Sunday, June 15, in many American cities, and in a number of foreign countries. Fathers will be honored by the wearing of rose red for the day. Mrs. Dodd has been actively promoting plans for a world-wide observance of "Father's Day," and she can comes to the following countries will fall in line next Sunday: Germany, Sweden, Korea, Japan, Mexico, Hawaii, Canada and India. Mrs. Dodd has a letter from Adahle Hershey, a visiting nurse in Honolulu, telling of her efforts there. Miss Hershey offered a prize to any woman who would correctly answer the question of the number of times that "dad" appears in the Bible. Nine men gave the correct answer, which is 1650. Many churches in Spokane will hold "Fathers' Day" services.

The subject for next Monday evening's meeting of the Y. P. S. of St. Andrew's, will be "Favorite Verses in the Proverbs." Program, 4:10-12. As this will be a leaderless meeting, those attending are requested to have a verse selected and to be prepared to say something upon it. If this is not done, the meeting will be very dull.

The invitation is extended to all to attend this meeting of the Y.P.S. at 8 o'clock next Monday evening.

## When East Meets West

The Made-in-Canada train presented quite an imposing appearance with its fourteen cars as it stood on the mainline for two hours last Thursday afternoon. Ten cars of exhibits, carefully selected to give the westerner an idea that Canada was not all prairie and plains. The industries of the East had reached a most inconsiderable point in their development. Ten of the coaches were given over to exhibits from over forty eastern factories and the interior furnishings, fittings and arrangement were calculated to set off these exhibits to the best advantage. A very large crowd of interested spectators visited the train and many of them were from the western country by those in charge of the exhibits. Samples and advertising literature were distributed in profusion and these will carry their messages into many homes. To enumerate the exhibiting firms would be too great a task. A dozen or more of the leading firms were those of the Ross Rifle Co. and the Mason & Rice Co. The latter, by the attraction of the music, was a very popular one. The advertising exhibit of Ontario's fruits, dairy products and honey, was one of the outstanding features of the visit to town. The products of the east were shown in several larger firms proved that manufacturing interests are becoming common to the west as well as the east. The enterprise of the Brandon Industrial Bureau was seen in the photographic display of Brandon industries. Clothing and shoe manufacturers were largely in the west. A bugler stood by the entrance to the grand piano and would have given the grand piano more opportunity to impress the exhibit. The train will travel over 3000 miles during its itinerary, covering a much greater scope than the train of last year. The educational value of this train is not confined to the western people who thus gain their ideas of the products of the east. It is a mutual interest, however, that the easterner should bring a broader view of the differing interests of the west and east and enable him to be more charitable in his attitude towards the vital issues of the westerner. The east must learn that a policy of give-and-take will produce a strong and healthy relationship. The westerner should be proud of the advancement that Canada is making in manufacturing as he is brought by this train more closely in touch with the achievements of the few years and the easterner should have a swelling pride in the great food areas through which he may travel for so many days and then be seeing only the fringe of the possibilities for development which the west presents. This hands-across-the-lines business might well be continued.

## Another Cricket Score

Several cars loaded with baseball fans went out to Meadow Creek yesterday to play the Creelites. The Claresholm boys took the long end of a 27-11 score. Mayor Holmes held the indicator with a loaded six in his hip pocket. His decisions pleased everybody. Fair hands deserved cakc, etc., to the visitors and some of them were lured into staying for the customary dance which winds up all the Creek social functions.

## Setting a Fashion

O. L. Reinecke and Isp. Tucker took a trip by car to Fred Burton's ranch yesterday. They came back by team. One of the horses being rather light behind and of a playful disposition the driver forced the seat as far back as the lines would allow and thus set a new fashion which may become quite popular in similar cases. Otto went out to dry the grassy sledges while a day's drying may have made the road safer.

The Irish Home Rule bill passed its second reading in the British House of Commons on Tuesday last with a majority of 98.

SAVED FROM SUICIDE

Letter to His Announcing Her Intent  
to Commit Suicide to Public Station

Dear Friends.—I am at  
tempt to suicide by a girl of 19, named  
Nell, was prevented at Clarendon by her  
brother, a railway guard.

The young man was shooting him  
as he ran away. The girl who was  
leaving for Paris with a letter  
without an envelope was handed him.

The girl, from her sister saying that she  
was going to commit suicide, and that  
had been the reason for her running in the sea  
at the end of the jetty.

Young Ned, at the risk of his life,  
jumped into the water and, swimming  
under the rail, and running along with  
the train, dashed up to the girl, and  
tore the letter from her hands.

He then, after a hard struggle, got  
the girl into a secret room and evaded  
every effort to make her give up the  
letter to the police.

Nell, however, a police  
misdemeanor in the station, and more  
fortunately still, there was a motor  
train at full speed down the  
jetty and dashed as Ned, Ned threw  
himself into the water, and Nell  
shouted to three customs office  
officers in a boat which was putting into  
the harbor, shouting to him to come  
out, and the girl was nearly  
100 yards from shore. Her brother  
then, in the nick of time, rescued her  
when the train arrived at Galtava.

## TOBACCO SMUGGLE IN PRISON Official Guilty of the Act Sent to Jail for Months

LONDON, England.—An extraordinary  
episode in the life of a prison official  
has been able to communicate  
privately with their friends and receive  
privileges which have not been equalled  
until now at the Portland prison recently.

Samuel Crowhurst, a civil guard at  
Portland convict prison, was charged  
with having illegally conveyed tobacco  
into the prison. He was sentenced to 12 months  
which was suspended for two years.

Said he: "I did not  
know that the contraband  
within the prison hall had  
an opportunity of seeing convicts who  
had been condemned to the ordinary  
gaols outside of the prison."

One such man was a convicted犯  
Day, who was serving a sentence of  
12 months for being a  
convict who had been  
acquitted and used as a medium between  
other convicts and their  
friends outside the prison. There  
was considerable traffic in the  
prison and a watch being kept,  
the convicts were sealed in a part of the prison where  
Day worked. The tobacco  
was brought from friends outside  
reading prison, and was hidden under  
sawdust.

Inspector Hall and Inspector  
Burton were sent from London to  
make a special investigation. They  
found that various convicts had written to  
their friends asking them to  
bring tobacco to the prison.

They also found that Day had hand-  
ed the letters to Crowhurst, and sent  
them to the prison authorities, and  
had received payment for the tobacco  
he sent to Mr. Trotter, coach of  
Postal orders were sent by friends  
to the prison, and they were sent  
to a man who was holding  
tobacco, handed it to Day, who in  
turn sold it in a secret store and even  
made a little profit on the sale of the other  
convicts.

The magistrate sent Crowhurst to  
prison for four months.

## For the Children

Grenville Temple Emmett  
Posing as a Picture Boy.

• By American Press Association.

The grave looking young gentleman in odd-looking clothes is Dolittle who has to earn his bread and butter, as he was told. When caught by the photographer he was posing as "Lord Althorpe," as he is known in the city by his son, Granville. It is pretty hard work for a little boy to stand stock still for any length of time, but the photo session that he is now admiring. The boy's name is Grenville Temple Emmett, and he is the son of Grenville Emmett of New York City, president of the Empire Trust, as well as to who the plaudits of the beholders, it is quite likely that he would have much preferred not to pose at all.

### How to Split Paper.

According to Popular Science News, there are two ways of splitting a sheet of paper. One is to lay the sheet of paper on a piece of glass, and then snap it with a sharp blow so that it comes off the glass. The dry end will come off the glass easily. Of course the glass must be perfectly clean. The second way is to lay the sheet of paper on a piece of cloth or strong paper on each side of the sheet to be split, and then hit the cloth with a hammer until the pieces of cloth split suddenly and violently. The paper can then be softened with water and the two halves of the sheet easily taken off the cloth.

### Orchestra—A Game.

The game of orchestra is a secret. Secretly the conductor who sits on his orchestra in a semicircle, each being assigned to play some imaginary instrument and instructed to play it. The first note of the first call on the orchestra to tune up, and then, naming some lively air, begins to hum it, at the same time writing it down on a piece of paper. All the players join in by imitating by voice and gesture, their instruments, such as harp, violin, cor anglais, trombone, etc., and the game goes on. Notes may be called for and the one representing the instrument named must respond or pay a forfeit. There are many more rules, but they are longer and bunter than this. Be sure to select a comical person to be your leader.—Philadelphia Ledger.

### More Lives Than the Cat.

If a starfish be torn limb from limb and the fragments cast into the sea from east to west, the starfish will result. The residue of the body will become the lost limb. From each severed limb will grow a new body. The starfish is a star, and therefore disruptive of the whole brigade and will shatter itself in fragments when an attempt is made to draw it from the sea. It however succeeds in having this uncanny resemblance to plant life. But the sea cucumbers voluntarily undergo division for the purpose of multiplying their kind.

### Nancy's Way.

The wind was howling around the house and shaking at the door. The sky was dull; the snowy fields lay like a dead man's face. I was tired of my fairy hood. And to top it all off, "These stupid winter days," I grumbled, "I'm sick of the cold." Then Nancy Joyce came running in, her cheeks like roses red.

### "The coat's too tight and stiff."

"You must come out," she said. "All I have to do is pull the pond and snow out and help us build a big snow fort instead." We hurried into coats and hats and started for the snow fort. Nancy and I, laughing, hand in hand we saw How bright the full day seemed to grow! Or was it just the voice and smile that made the change of jolly Nancy Joyce?

—St. Nicholas.

## SYMPATHY.

That ring will bring me cheer,  
They're printed there in books and herbs  
For any sympathetic chap  
To dig right in and borrow.  
"I'll give you a hand and a lap  
Of neighbors who're in sorrow,  
And if you're not a sympathetic person  
And all the words are spoken  
Our little bird in the bushes don't  
Sing even when you look."

If you are sorry for a man  
And want that man to know it  
Then say "I'm sorry for you."  
And let your service show it.  
"But let me sympathize him,  
But let me sympathize him."

He something when his hours are grim  
And when his days are dim.

Stretch forth a hand that he can take  
And let him hold it, if he asks  
And if he needs for friendship's sake  
Let there be something in it.

The words you say may break  
The words you say may bitter,  
Are valuable unto the week  
With a few words of sympathy.  
This feeling sorry for a man  
Unless in every way you can  
Let your kind deeds follow.

But if you're not a sympathetic person  
Your sympathy is living  
And not a lot of words of grim,  
Your sympathy is giving.

—Detroit Free Press.

## Pleasant.

The General—Hab! So you're to be my partner today?—Budminster Club.

Pleased, I'm sure. May I ask you who carry three rackets?

The General—Well, you see, I'm a bit short-tempered and generally break one or two on my partner during the game.

Life and Death.

The treasurer of the bank was dead. Word had just been received over the telephone. It was shortly after business hours, and by common consent, all of the employees gathered together in a little group.

"I feel as though I had lost a brother," said the most recent recruit.

"I shall never get used to it," added the master.

"I make me sick," whispered the postmaster.

"I shall think about it all night," remarked the bookkeeper.

"It's awful," said the clerk.

There was a moment's silence. The general boy spoke:

"What's wrong? What's the matter?" he chattered.

Everybody gave an involuntary start.

The general boy had been a mind reader.

Successful.

Two young women were exchanging confidences. One of the young women was a widow, and she was telling her hostess of many ambitions.

But the other was bewitched for the first time, and it was this one who was having the most fun.

"My dear, I shall never be happy again," she groaned. "Half the time he says he doesn't know whether he loves me or not. You have no idea what it is like to be in love."

Now, I will warn every daughter who reads this little talk against half the girls in the world, and especially her parents. Never be ashamed of the fact that your parents have not been "debutantes" or not educated from the cradle. You are not inferior to any girl in the world.

## BLOWING OUR OWN HORN

We would be afraid to blow our own horn if it was not that we have a lot of satisfied customers who are praising the quality of the Tobaccos, Cigars, Cigarettes, etc., we are handling and as our goods stand up so well now, we are only afraid to say that we have a烟斗 as varied and as large a stock of the best tobacco and smokers' accessories is carried in this country. This is a lot straight from the shoulder and we want to hit every user of tobacco who has not become our customer.

## May Be Investigated

THE FOLLOWING CLIPPED FROM A SPOKANE PAPER MAY CALL FOR POLICE INVESTIGATION HERE:

"The Mounted Police at Macleod have been notified by the authorities of Spokane county, Wash., of the death at that place recently of Ruth M. Dickson, baby daughter of Mrs. M. Dickson, baby daughter of Mrs. Myrtle Dickson, of Granum, Alta., and of the verdict brought in by the coroner's jury which heard the entire case submitted at the inquest, so that the case may be investigated and if the findings of the coroner's jury are correct, proceedings may be taken against the father of the child.

So the jury find that the deceased was Ruth M. Dickson, the 15-day-old daughter of Dickson, F. P. Wadler, of Granum, Alta., Canada, was also the father of the deceased.

"We find from the evidence that the deceased came to her death by being smothered while in bed with her mother, and that Mrs. Myrtle Dickson, the deceased, was a widow, Dickson, and having full knowledge of the irreconcilable condition of Myrtle Dickson, an epileptic, is criminally responsible for allowing the deceased to remain alone under Myrtle Dickson's care.

"When we have presented the matter to the Canadian authorities, whereupon a Canadian police officer will be sent to Macleod to conduct the investigation, the coroner's jury were correct, it is the duty of the Canadian government to prosecute the father," said prosecuting attorney George Crandall last night. "Mary Trowbridge, the nurse, may have been negligent in caring for the mother and the child, but she has committed no crime which could justify us in attempting to prosecute her."

**A Water Warning**

Owing to the shortage in water which may occur from time to time, the town plant has been shut down for repair and the town dependent upon the wells on the hill, the secretary treasurer has de-

cided, after the 10th of this month, to disconnect water-users who are in arrears and he says that once the water is shut off no connections will be made again until the user has paid the town plant and pumping from the creek resumed. This is a fair warning pay up or be disconnected.
